

USATestprep, Inc. has carefully researched all of the standards set forth in the QCC and has developed questions and answers based on these standards. It is USATestprep's intent that the content of the webpage will closely match the test-taking experience. However, there is no guarantee of content overlap as every year the DOE makes new tests, and every year the USATestprep, Inc. library of questions grows. It is simply their desire that through your experiences on this website, you may become more comfortable with the content and gain the knowledge necessary to successfully pass the Georgia High School Graduation Test and EOCT.

# Testing Help

In order to receive a high school diploma, students must pass various tests. Students must pass comprehensive *Georgia High School Graduation Tests* in Science, Social Studies, Mathematics, English, and Writing. Additionally, students are required to take **End-Of-Course Tests (EOCTs)** for eight courses near the culmination of each course. In Gwinnett County, students must also pass the **Gateway Exam** in the areas of Science and Social Studies.
